INVITATION TO THE 2025 MATHEMATICAL CONGRESS OF THE AMERICAS
INSTITUTE OF THE MATHEMATICAL SCIENCES OF THE AMERICAS (IMSA)

Dear Participant,

The Institute of the Mathematical Sciences of the Americas (IMSA) at the University of Miami is honored to serve as the host of the 2025 Mathematical Congress of the Americas (MCA) to be held in Miami July 21-25, 2025. The MCA is a quadrennial event sponsored by the Mathematical Council of the Americas and the 2025 edition will mark the first time the Congress will be held in the United States. 2025 marks the centenary anniversary of the founding of the University of Miami and IMSA and the University looks forward to MCA 2025 as one of the signature events of the year.

The goal of the Mathematical Congress of the Americas (MCA) is to internationally highlight the excellence of mathematical achievements in the Americas and foster collaborations among researchers, students, institutions and mathematical societies in the Americas. This converges with the threefold mission of IMSA to foster and facilitate research in mathematics and its applications across the Americas; disseminate advances from this research broadly and interactively to the global mathematical and scientific communities; and build national and international capacity in the mathematical science workforce by providing targeted educational opportunities at key points in human intellectual development.

We are very grateful for your interest in participating in MCA 2025 and are pleased to present you with this formal invitation to participate in the 2025 Mathematical Congress of the Americas. Please include this letter among your supporting documents in your application.

Looking to welcoming you to Miami in July 2025.

Sincerely yours,

Robert Stephen Cantrell, Ph.D.
Professor and Chair
Department of Mathematics
The University of Miami

Chair, Organizing Committee
Mathematical Congress of the Americas 2025
